

## **MEDICAL EQUIPMENT SUPPLIERS**

Lower reimbursements, competitive bidding, accreditation requirements are just some of the business pressures forcing medical equipment providers to be more efficient throughout their company to maintain profitability. In addition, providers looking to increase business must do so with minimal increase to their internal costs. *HUBSCRUB* automation clearly achieves efficiency for the daily task of cleaning and disinfecting wheelchairs and other medical equipment.

As professionals with medical equipment, providers demand the best to meet ever changing needs from equipment, customers and industry requirements. *HUBSCRUB*'s proven track record for quality cleaning, infection prevention capability, reliability, and versatility are the innovative performance factors that distinguish *HUBSCRUB*.

To improve productivity and streamline staffing, *HUBSCRUB* delivers in a number of ways;

- 1) Cleaning time is reduced by 50 to 70% when compared to manual methods.
- 2) Technician's productivity improves on revenue work while *HUBSCRUB* does the cleaning work.
- 3) Staffing levels stay constant even when cleaning requirements increase.
- 4) A consistent cleaning and disinfection process every time no matter who presses the start button.
- 5) High production for frequent equipment turnover

*HUBSCRUB*'s infection prevention capability is un-surpassed. Multiple disinfectant technologies are supported - hydrogen peroxide, EPA registered disinfectants, accreditation approved, cost savings - over 500 disinfectant cycles using only one gallon are just some of the benefits.

*HUBSCRUB*'s spacious wash chamber accommodates a variety of equipment; custom wheelchairs, tilts, recliners, strollers, standers, rental beds, etc.

Our rotating spray system with higher spray pressures provides the coverage for multiple shape equipment and the cleaning power.

Outstanding product performance provides the opportunity to extend a cleaning service to your customer base and to develop additional accounts through a service at their facility or at your location.
